

PLEASE Skill

DBT: Emotion Regulation Skills

The PLEASE skill in dialectical behavior therapy (DBT) is a simple acronym that helps you remember the basics of mental and physical well-being. This worksheet will guide you through applying the PLEASE skill to manage intense emotions that get in the way of feeling good.

PL

Treat Physical Illness

Make sure to look after your overall physical health by having regular check-ups, staying active, and following any medical advice. Taking care of your body helps keep your mind stable and healthy.

E

Balanced Eating

Try to eat regular, healthy meals. Good nutrition can help keep your mood steady and give you the energy you need, making you less likely to feel upset or stressed.

A

Avoid Mood-Altering Substances

Stay away from substances like alcohol and drugs that can affect your mood and thinking. Avoiding these helps you think clearly and manage your emotions better, which is important for your mental health.

S

Balanced Sleep

Getting enough sleep is very important for handling your emotions well. Try to keep a regular sleep schedule. Good sleep helps your mind work properly and keeps your emotions steady, reducing the chances of feeling moody or upset.

E

Exercise Daily

Exercise can lift your mood, reduce stress, and improve your overall emotional well-being. It also helps your body produce endorphins, which make you feel happier.

PHYSICAL ILLNESS: Take care of your physical health.

Track your progress daily for a week to see if you are attending to your physical health on a regular basis or if there is room for improvement.

	M	T	W	T	F	S	S
Scheduled and attended doctors appointments							
Took medications							
Took a shower and washed face							
Brushed my teeth							
Moved my body							
Ate nutritious food							
Went outside							
Drank enough water							
Limited time on social media							
Cleaned the house							
Spoke to another person							

What challenges did you face when taking care of your physical health and how can you overcome them?

BALANCED EATING: What we eat contributes to our mental health.

Keep track of the foods you consume for several days and how you feel after you eat them. The more specific you can be about how you feel after eating, the better!

Food Consumed	How I Felt After Eating it

**AVOID MOOD
ALTERING
SUBSTANCES:**

Evaluate your use of substances that may affect your mood.

Substances such as alcohol, non-prescription medications, drugs, and caffeine can affect your ability to regulate your emotions. One of the keys to emotional stability is to take medication as prescribed and avoid substances used for self-medication.

What mood altering substances do you use?

What are your personal reasons for avoiding mood altering substances?

What steps can you take to reduce or eliminate these substances?

What challenges might you face and how can you overcome them?

BALANCED SLEEP: Getting enough sleep is important to your mental health.

You should strive for 7 to 9 hours of sleep per night and establish good sleep habits to help regulate your mood.

With a sleep diary, you can log your bedtime, night awakenings, and morning wake-up times. This helps you see your sleep patterns and overall sleep duration, as well as how often your sleep is disrupted. Additionally, a sleep diary helps you track activities affecting your sleep. You'll note when you exercise, nap, take medication, or consume caffeine or alcohol.

INSTRUCTIONS: (1) Write the date and type of day: Work (W), School (S), or Day Off (DO). (2) Put the letter "C" in the box when you have coffee, cola or tea. Put "M" when you take any medicine. Put "A" when you drink alcohol. Put "E" when you exercise. (3) Put a "B" in the box to show when you go to bed. Put a "Z" in the box that shows when you think you fell asleep. (4) Put a "Z" in all the boxes that show when you are asleep at night or when you take a nap during the day. (5) Leave boxes empty to show when you wake up at night and when you are awake during the day. SAMPLE ENTRY BELOW:

EXERCISE DAILY: Exercise is a great way to balance your mood.

Though it can be challenging to incorporate exercise into your daily routine, completing it can make you feel better physically and mentally. Even 20-30 minutes of brisk walking can be beneficial.

Which workouts did you enjoy the most and want to do more often?

What challenges did you face and how can you overcome them?

Additional Resources to Support Your Mental Health Journey

It can be hard to know where to begin looking for support in your mental health journey. Getting a referral from a primary care physician is a reliable first step. Also, sometimes family and friends have experienced similar issues and have professionals they would recommend. The experts at ChoosingTherapy.com are here to help as well, with resources we have reviewed and recommend. Our [strict editorial standards](#) ensure our reviews are fair, honest, thorough, and based on firsthand experience.
